SOLAR FINANCING WITH NO MONEY DOWN & NO INSTALLATION COSTS

Solar PPA At a Glance

Inclusive Prosperity Capital offers a Solar Power Purchase Agreement (PPA) which focuses on traditionally underserved project types (unrated credits including municipalities, schools, non-profits, rural cooperatives, tribal lands, and affordable housing) — this provides such property owners with the ability to go solar with no money down, delivering Day 1 cost savings and peace of mind knowing an experienced and mission-aligned third-party owns and operates the PV system to maximize your benefit.

What is a PPA?

Under a PPA, you agree to purchase the electricity generated by a solar system installed at your property at an agreed-upon rate, often at a significant discount to grid power. IPC oversees the development, construction, and operation of the installed PV system throughout the life of the contracted term.

What are the key features?

- ❖ Standard agreement for 20 or 25-year term
- ❖ Fixed or escalating price options available
- ❖ IPC monitors and maintains the system, managing all equipment, warranty, and performance issues
- ❖ Option to purchase the system throughout the contract term
- ❖ Technical and financial review of project so that you can have confidence that your system should meet its electricity production targets

Which property types are eligible?

- ❖ Municipal and nonprofit properties, including schools, faith-based institutions, recreational facilities, museums, and theaters.
- ❖ Small-to-medium Commercial Businesses
- ❖ Affordable Housing
- ❖ Rural Cooperatives and Tribal Lands
